ADVANCED IMAGE SOLUTION FOR ACCURATE DENTAL DIAGNOSIS

Pax-i Plus provides the most precise and high quality panoramic image by innovative imaging process and accumulated experience in dental imaging from VATECH. It improves your diagnostic accuracy with increased treatment planning and patient satisfaction.

New standard of panoramic image - Actual Pano Resolution : 5 lp/mm

Clear and sharp panoramic image brings better diagnostics. Enhanced details especially in the anterior and dental roots can be viewed. These consistently high quality images will become the new standard of panoramic imaging. Improved Image Processing.

INHOUSE MANUFACTURING (Hardware + Software)

ADVANCED IMAGE SOLUTION FOR ORTHDONTIC DIAGNOSIS

EXTEND DIAGNOSTIC VALUE FOR WIDE INSIGHT

Cephalometric (Rapid Ceph)

Pax-i Plus provides optimal images with an exclusively designed sensor for cephalometric diagnosis.

As it offers two image sizes, LAT and Full LAT, you can choose one of them based on the purposes of your diagnostic needs.

TWO BUILT IN SENSORS

PaX-i Plus offers two dedicated and embedded sensors for Pano and Ceph.

It not only allows you to capture an optimal image from each sensor but it also makes your workflow faster.

| Examination Program | Exposure Time (Sec.) | Function |
|---------------------|----------------------|---|
| LATERAL | 1.9 | Lateral provides specialized high quality images to suit orthodontics and maxillofacial surgeries. |
| FULL LATERAL | 3.9 | Full lateral shows 30% larger images than LATERAL and the occipital area for comprehensive diagnosis. |

GREAT CLINICAL CARE WITH RAPID CEPH TECHNOLOGY

MINIMIZE MOTION ARTIFACTS WITH RAPID CEPH TECHNOLOGY

The next step in Cephalometric Technology, Vatech's new Rapid Ceph minimizes motion artifacts and enables faster diagnostic workflow while providing the highest quality digital images.

THE COMPLETE SOLUTION, FOR YOUR CONSULTATION

EzDent-i will change the way of your consultation providing versatile tools such as clinical (EzCodi) and powerful simulation tools. This fully packaged software will increase acceptance rate and satisfaction of patients.

1. Simple Tool Bar

Well organised and intuitive icons make your workflow faster and efficient. They are configured in an easy to follow diagnostic sequence.

2. Patient Search

The patient search box is fixed on the screen so you no longer need to move to the 'patient' tab to search for a new patient.

3. Drag & Drop

All patient images are displayed along the bottom of the screen. Simply find the image you need and then click, drag and drop it into place. That's simple.

Quick Implant Simulation

Case Management

Scatter View

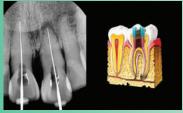

Full Size Screen

2 in 1 Communication with EzCodi Diagnosis and Consultation

EzCodi provides approximately 244 treatment process animations

You can display animation together with X-ray image for better consultation. This unique and useful tool will not only increase patient's understanding but also increase case acceptance.

Implant Treatment

GET SERVICE & SUPPORT FROM THE PEOPLE WHO KNOW YOUR UNIT BEST

Because Vatech makes the Hardware & Softwares, the products are truly system integrated. And only Vatech give you one-stop service and support from our experts, so most issues can be resolved in a single call. Our Support System is what makes us Most Reliable Brand in Digital Dental Industry. With the Largest Team of Professionals, we ensure to give you the Quick Solution for your concerns
